

## Construction Update for the Week of October 9, 2017

### Cooke Glenmont:

- Continuous maintenance to the rain gardens and bump outs
- Fencing around the regional basin is coming soon!

### Schreyer Springs:

- Fair Oaks Dr is awaiting a chlorination test of the waterline
- Waterline work on Lawnview Dr is being finished
- Excavation of rain gardens will begin on Lawnview Dr
- There will be crews completing downspout redirection and sanitary lateral lining on Eastlea Dr and Cooke Rd

### Weisheimer Indian Springs - Pervious Pavement:

- Dixon Ct is awaiting chlorination testing to take place on water work; there will be minimal work until the test is completed
- Crews will complete storm work and water main services on Coke Way and Alley 2
- Crews will continue excavation in preparation of the paving on Cooke Way and Alley 2

### Weisheimer Indian Springs Green Infrastructure

- Excavation of rain gardens and bump outs is continuing on DeSantis Dr
- Crews will issue a notice to residents before moving to the next street

### Blenheim Glencoe

- Crew 1 will begin waterline work on Fallis Rd; residents have been notified by the contractor
- Crew 2 will begin waterline work on Foster St; residents have been notified by the contractor

### Upcoming Construction Areas

- Active construction within Morse Dominion, and Overbrook Chatham will begin this month. The crews that will be working in these areas will provide residents with a notification before they begin work.
